About Central Login Help List of services E-mail activation

The Central Login enables users to log into internet services provided by the Jagiellonian University. By logging into one service you gain access to other online services (you need to enter your password only once). If you log out, you are automatically logged out of all available services. The Central Login increases your security - the password is entered only once and you always log into the same secure website.

To use the **Central Login** you need to enter your ID and password.

Your ID is your Jagiellonian University e-mail address:

► **yourname.yoursurname@uj.edu.pl**

Please note that because a few Jagiellonian University users have the same first name and surname, some e-mail addresses may have a different pattern.

Students who need to access USOSweb and do not have a Jagiellonian University e-mail address may use an alternative login ID in the form of `usosweb-login@usosweb.uj.edu.pl`, where "usosweb-login" is usually a unique number provided by the Student Services Office. If you need further information please look under **Help** tab.

**If you don't link them you will be removed from the courses.**  
The courses you have registered on using USOSweb registrations should be linked the same day you have registered, because such unlinked courses will be removed next day after registering. To the right of the "About news" box is a "How to log into the USOSweb system" box with the following text:

To log into the system you have to enter your ID (identyfikator)

- your email address: name.surname@uj.edu.pl
- ID number: (numbers)@usosweb.uj.edu.pl - the ID number

At the bottom of the page is a "USOSweb" section with the following text:

**Dear Students!**

This internet service was designed for you. It shows you the information entered into the main USOS system by administrative staff, and offers many additional possibilities, such as online course registration.

USOSweb is made of modules. Not all of these modules are used at their full capacities, at the moment this depends mainly on the faculty where you study. Additionally, a large part of functions and information for student and teacher should have an id and password of his/her own, assigned by the faculty's student office. You can get more information about USOSweb accounts and possible problems using the LOG IN button.
